Summary

B.Tech graduate specializing in Computer Science and Engineering, currently enhancing my expertise through a MEARN stack development internship. I have experience in building responsive, dynamic web applications using HTML, CSS, JavaScript, and React, focusing on delivering optimized user experiences. I am skilled in front-end development, API integration, and creating efficient back-end solutions with Node.js. Passionate about leveraging my technical skills to drive impactful projects, I am seeking opportunities to further enhance my expertise in full-stack development and contribute to high-quality software solutions.

Experience

Luminar Technolab	Ernakulam
MEARN Stack Developer Intern	06/2024 - 12/2024
<ul style="list-style-type: none">Designed and developed responsive web applications using HTML, CSS, Bootstrap, and JavaScript, ensuring seamless user experiences across various devices and browsers.Implemented dynamic and interactive front-end components using React, optimizing functionality and performance.Integrated external APIs to display real-time data, enhancing the dynamic nature of the web applications.Followed mobile-first design principles to ensure optimal performance and usability across various screen sizes.Employed Bootstrap for streamlined, visually consistent layouts adhering to modern UI/UX best practices.Applied JavaScript to manage state within React components and create engaging interactive features.	
Futura labs	Calicut
Cyber Security Intern	05/2023 - 05/2023
<ul style="list-style-type: none">Monitored network traffic and identified potential security threats.Conducted vulnerability assessments and penetration testing on company systems.Implemented security measures to protect sensitive data and prevent unauthorized access.Prepared detailed reports on findings and provided recommendations for improvements.Gained hands-on experience with tools such as VeraCrypt, Nmap, and Maltego.	

Education

Cochin university of science and technology	
Bachelor of Technology in Computer Science and Engineering	11/2020 - 03/2024
Sacred Heart CGHSS	
Higher secondary (XII)	06/2018 - 03/2020
Sacred Heart CGHSS	
High School (X)	06/2017 - 03/2018

Skills

HTML • CSS • Bootstrap • Javascript • React • Java

Projects

Zing Chat
Developed a real-time chat application using React and Firebase for seamless communication between users.
Implemented user authentication with Firebase, allowing secure sign-in and sign-up processes.
Utilized Firebase Firestore for real-time data storage and retrieval, ensuring instant message delivery.
Designed an intuitive user interface with responsive components to enhance user experience across devices.
Deployed the application for live usage, demonstrating proficiency in front-end development and cloud-based backend services.
Nomadic Matt Travel Webpage clone
Created a front-end clone of the Nomadic Matt travel website using HTML, CSS, and Bootstrap.Focused on replicating the website's layout, design, and visual elements to provide a seamless user experience.Ensured the design adhered to mobile-first principles, optimizing for different devices and screen sizes.Deployed the project on Netlify for online access and maintained version control using Git.
